

**LED WILL MAKE THE  
FUTURE OF LIGHT  
BETTER, ECONOMICAL &  
ENVIRONMENTAL - FRIENDLY!**

**DDS ELETTRONICA HAS  
10 YEARS EXPERIENCE  
ON SOLID STATE LIGHT  
IN DIFFERENT KIND OF  
APPLICATIONS.**

LED LAMPS CAN BE USED AS FLOODLIGHT, WALL WASHER OR SPOT LIGHT DEPENDING ON DESIGN PURPOSE.

Linear LED strips are available with different LED numbers and inter axis to replace both halogen lamps and fluorescent tubes.

Round LED light engines are available with 1 to 18 LEDs with different power levels to replace incandescent and halogen bulbs.

Round and Linear Light Engines may be used with or without the light collimator or optic lenses.

LED has long life and requires power from 1W to 20W maximum.

LED LAMPS ARE FREE OF FRONTAL HEATING & UV RAYS.

Ideal light source for: painting, jewelry, food display, bakery, wines and liquors, ice cream and candies, leather articles, fashion and accessories.

Low power use and no maintenance cost make LED perfect for safety and commercial applications. They are available in different white choices - in Kelvin terms - and fixed or changing colored light.

PERFECT FOR DOMESTIC AND PUBLIC SPACES WHERE ACCENT LIGHT IS NEEDED.

EUROPEAN DESIGN AND QUALITY FOR  
THE FUTURE IN LIGHTING TECHNOLOGY
